NHS 150m Easy Line

The NHS 150m is the smallest motorized chipper in the NHS range. There is no doubt about its efficiency - here you have a wolf in sheep's clothing!

Ideal for rental-companies and municipal road and park maintenance.

NHS 150m comes with NHS InfoCon (Anti-stress, Hourcounter and serviceplanner) and infinitely adjustable discharge pipe (360°)

The daily service and maintenance is met with the NHS EasyCut® chopping system, which for the 150-series has reversible blades and does not require setting of either a blade or counter blade - whether you are servicing with new or resharpened blades.

Max. log diameter / (Opening) [mm]	150 (150x170)
Min./max. Power input [HP]	24
Brakes	Option
Revolutions, Chipping disc [rpm]	1400
Blades (hardened) [pcs.]	4
Counter blades [pcs.]	1
Cut per revolution [pcs.]	2
