NHS 220i Standard Line

NHS 220 is by far the most popular NHS woodchipper in the range.

The high-strength steel ensures a solid and robust construction that does not compromise on flexibility. Despite the strong exterior, the machine has a modest total weight.

The *i*-model is with internal hydraulics, NHS InfoCon (Anti-stress, hourcounter and serviceplanner).

In addition to a superior capacity, it also delivers a unique chip quality.

NHS 220 offers a wide selection of additional equipment.
